Multifunctional Verbatim Management System

Advisor : Jonathan Lee

Member : 李學翰、羅費南、廖盛弘、周語涵、吳詩昀、黃彥鈞

Revision History

Version	Responsibility	Description	Date
0.1	李學翰	Add Outline	2022/10/27
1.0	李學翰	Integration	2022/11/07

Outline

1. System Architecture	1
2. Process Design	2
3. User Interface Design	3
4. Class Diagram	5
5. Sequence Diagram	8
6. Data Design	11

1. System Architecture

People often need to participate in a variety of meetings, some of which have the need to record the content of the meeting. Therefore, audio recordings and verbatim transcripts have become an integral part of the meeting.

Our team members observed that there is no software available to automatically generate verbatim transcripts that meets the needs of the general public.

In this project, we have developed a software for verbatim transcripts. In addition to the functions it should have, it can also automatically translate, automatically summarize, and automatically capture keywords. By realizing various functions, it can meet the needs of modern people.

This project is developed by students of National Taiwan University. The content of the project mainly includes page design, functional algorithm design, back-end management interface and other projects.

3. User Interface Design

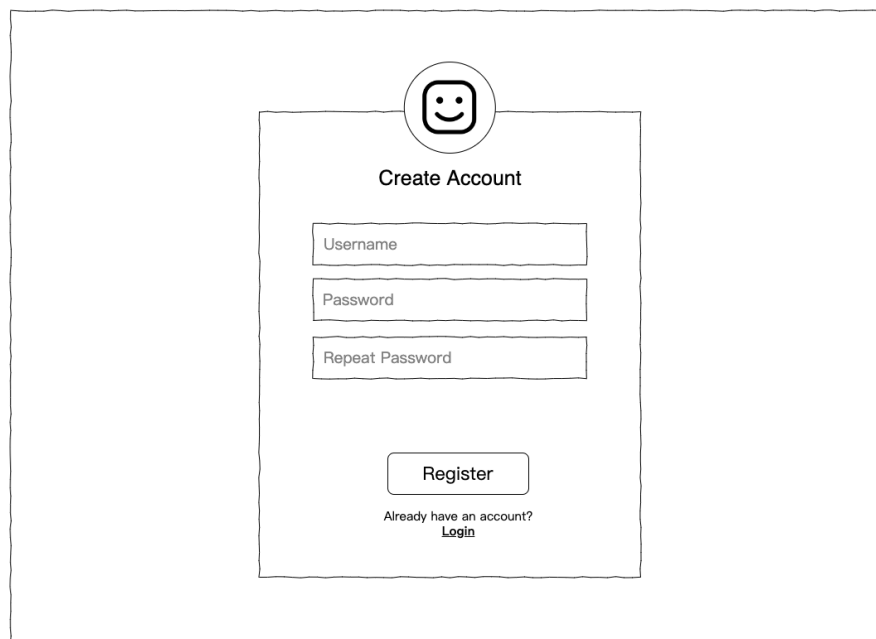

Login Page

The login page features a central white box with a rounded border. At the top center of this box is a circular icon containing a simple smiley face. Below the icon, the word "Welcome" is centered. Underneath, there are two input fields: the first is preceded by a small person icon and labeled "Username"; the second is preceded by a small padlock icon and labeled "Password". Below these fields is a rounded rectangular button labeled "Login". At the bottom of the box, the text "Don't have an account?" is centered, followed by a link labeled "Register Now" in a smaller font.

Registration Page

The registration page features a central white box with a rounded border. At the top center of this box is a circular icon containing a simple smiley face. Below the icon, the text "Create Account" is centered. Underneath, there are three input fields stacked vertically, labeled "Username", "Password", and "Repeat Password". Below these fields is a rounded rectangular button labeled "Register". At the bottom of the box, the text "Already have an account?" is centered, followed by a link labeled "Login" in a smaller font.
